Why choose a Pagabo framework?

We're a different kind of framework provider. With over 100 years' experience in procurement, we understand your challenges and work to deliver the most value possible from your projects.

3 reasons we're different:

- 1. We deliver:** We won't let you down when it comes to delivering the number of bids your project needs. We work closely with the consultants to make sure it happens.
- 2. No project, no fee:** We don't believe in engagement fees. We share the risk in the early stages of the process by only charging fees once your project officially starts.
- 3. Your contract, your way:** Our frameworks are compatible with any contract type, whether its NEC, JCT or your own organisations.

Some other key benefits of using Pagabo:

Simplicity

We take the complication out of procurement, so all our frameworks are free to access and easy to use.

Support

We provide support and advice throughout your project, from feasibility to handover through to completion.

Transparency

We don't hide costs. Our fees are fully transparent and charged as an agreed percentage of the overall project.

Stability

We monitor the financial stability of our consultants to ensure they continue to be a safe pair of hands for your project.

Flexibility

Whether it's a Direct Award or Further Competition, our frameworks support a range of procurement processes.

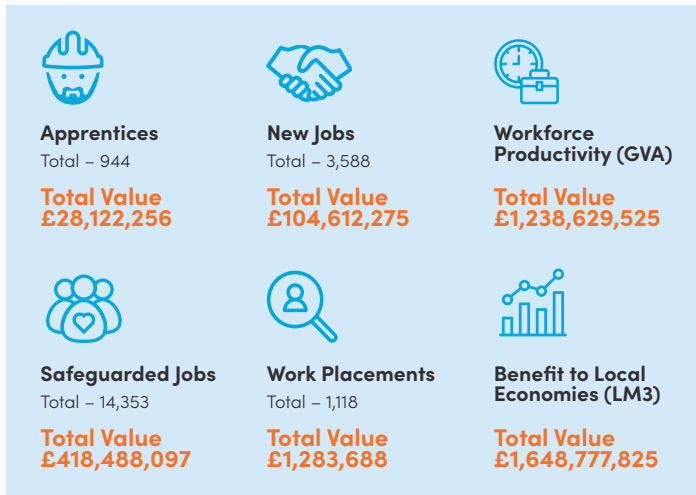

Value for Money

Each of our consultants has met rigorous selection criteria around quality of work and competitive pricing.

Delivering real social value

Driving real, meaningful social value is at the heart of what we do at Pagabo. Through our unique Social Value Calculator, we are able to calculate your social, economic and environmental impact and the financial value, in real monetary terms, of that impact. Pagabo adds value through our frameworks by supporting social value at the feasibility, business case development, planning, procurement, delivery and maintenance stages of your investments.

As of February 2021, our frameworks enabled £3.44 billion in social value.
